Professional Summary

Aspiring AI/ML Engineer with hands-on experience in machine learning, deep learning, computer vision, and data analytics. Passionate about building intelligent systems and solving real-world problems using AI.

Education

B.Tech in Artificial Intelligence and Machine Learning, XYZ College of Engineering (2021–2025),
CGPA: 8.8/10

Technical Skills

Python, Machine Learning, Deep Learning, TensorFlow, Keras, OpenCV, SQL, Pandas, NumPy

Projects

AI Waste Classification System - Developed a CNN-based model to classify waste into recyclable and non-recyclable categories.

Skin Disease Detection using AI - Built an image classification model for detecting common skin diseases from images.

Internship Experience

AI/ML Intern, InnovateAI Labs (Jan 2025 – Jun 2025)

Worked on model training, data preprocessing, and deployment of machine learning solutions.

Certifications

Machine Learning Specialization (Coursera), Deep Learning Fundamentals, Python for AI

Achievements

Top Performer in AI Hackathon 2025; Published a college research paper on Computer Vision.
